JUBILANT
COLLEGE

On behalf of Jubilant College, I take great pride to welcome all the parents who are conscious and dedicated towards the better future of their children. Jubilant College has a mission to produce the responsible citizens for the country through empowering the curiosity, creativity and critical thinking of our students and to be lifelong learners and productive members of an ever-changing global society. This can only be possible in a holistic and student-centric environment.

Asst. Prof. Dr. Swagat Shrestha
Chief Advisor
PhD (Organic Chemistry)

Welcome

It is no longer sufficient to get high marks in the Examinations rather it has been very important to get skilled and character based learning from the very early age. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that they will be able to reach greater heights. If given sufficient support and challenge, every student can excel and succeed regardless of their personal circumstances.

Also, the teaching faculties have been empowered and better equipped to engage the attention of the students and create more effective learning environment. I hereby, proudly state the fact that our faculties are committed to offer a comprehensive education for the future pillars of our nation.

We are dedicated to fulfill the expectations of our prospective parents who are the most strengthening power in moulding the future of children. Your precious suggestions will be given higher priority and weightage. Students and parents are main link in the college system whose role can't be ignored.

Hence, I am confident that we are sure to succeed into the journey towards excellence with the support of all the members of Jubilant family.

Message from the Principal

Jubilant College is a dynamic learning community where parents, their children and the staff cooperate with each other for children's education. We have planned all the curricular and extra-curricular programs to meet the requirement for students' holistic development.

We have garnered wider recognition for our intensive care of students' progress that is proven with admirable results and records. All our programs are designed to cater the principles of 'enjoyable learning'.

We offer a current, relevant and engaging curriculum to better suit the students' individual interest and potential. Maintaining the competitive and cooperative environment in the class, we give regular tests and creative feedbacks for their extensive progress.

Each of our students involves in various social and environmental activities to mould into a responsible human being. Taking diverse responsibilities and playing a number of roles in the various events our students groom their self-discipline and leadership.

Moreover, students always find abundance of service and facilities here: peaceful and resourceful educational environment, talented and dedicated teachers, enriched library, specialized clubs and enough sports.

So, I believe, Jubilant proves itself to be the right place to begin student's learning journey.

"You have the dreams; we have the plans to achieve them."

Mr. Rishi Prasad Neupane
Principal
M.A., M.Phil (English)

Message from the Chairperson

It is our vision to provide the world with motivated, responsible and disciplined youth, to shape a better future. We believe this can be achieved by strengthening youth foundation upon which they can create a successful future for themselves and the society around them. All our effort has been focused on blending the local values with the global standard in our students.

Now, we have come up with a greater goal of exploring a new dimension of education in Nepal. Essentially, education should empower the learners to involve in the welfare of nation. A nation can leap forward only with the well-educated generation. For this great cause, our endeavor goes on making the new generation responsible for social transformation. It is so pleasant to share our experience that Jubilant pass-outs have already occupied the eminent position in corporate and social sectors.

Our teams of proficient and trained teachers are dedicated to facilitate each learner achieve his/her maximum potential. With inbuilt assessments and ongoing feedbacks that involves parents, every child is

given room to improve. We sculpt them into competitive, optimistic, empathetic individuals who strive to succeed in every challenge they are faced with.

So, I warmly invite you to visit our college and see our child-friendly environment and teaching learning methodology that offers enough reason for choosing Jubilant.

Dr. Hom Nath Luitel
Chairperson/MD
PhD (Chemistry)

Introduction

Jubilant College (JC), the institution established in 2064 BS with the aim of "exploring the future..." under the management of renowned university professors and academic professionals, provides value-based and career-oriented education as per the need of the current generation to meet the goals of the nation through a variety of streams and disciplines. With the common focus on providing their best to the future pillars of the nation through the experience they have gained for some decades in the past, the directors and the promoters of JC plan and implement the activities for the holistic development of the students at present encompassing various CA, CCA and ECAs.

At Jubilant College, the students not only take the opportunities of holding degrees through their perpetual endeavors in accompaniment with the proper guidance and counseling of the faculties and the administration, they

also utilize such chances to cater themselves through ample trainings, skills and proficiencies needed to work as skilled and professional human resources in different fields in the future. All academic and recreational activities sharpen the students both socially and psychologically in a continuous interplay between motivation and achievement as proven by our history longer than a decade.

To achieve our goals, we have set up well-equipped science and computer labs, enriched library, beautiful infrastructure with well-adorned classrooms, canteen with proper hygiene and healthy foods, spacious playground, healthy and academic environment in the college. Situated in an outstanding way at Kalimati, the heart of Kathmandu, JC is accessible to the students from all directions of the city. In brief, Jubilant College proves itself as an ideal academic destination.

Vision

Producing capable and responsible citizens that can excel the competitive global society.

Mission

Provide the students with resourceful and delightful environment to engage them in diversified steps of learning that prepares them for their successful career.

Objectives

We provide our students with opportunities to develop:

- Creativity and communication skills
- Desire for further learning
- Critical thinking and logical judgement
- Social responsibility and moral values
- Self-discipline and individual talents
- Awareness of environment and technology
- Impart knowledge and skills required for profession and higher study.

Salient Features

JC is well-known for the under mentioned features.

- Classes by renowned professors and lecturers.
- IT based education.
- Latest methods of teaching with regular innovation and creativity.
- Special and individual care of the students in their academics and other aspects.
- Regular evaluation through exams, re-exams, monitoring and counseling.
- Plenty of outdoor activities to cater holistic development.
- Regular project works, educational tours, visits and excursions.
- Career-oriented and market matching trainings, seminars, and workshops.
- Proven record in academic achievement.
- Spacious canteen with hygienic foods.
- Refreshing environment with well-managed garden.
- Carpeted and well-furnished classrooms.
- Spacious & well-equipped computer & science labs.
- Enriched library with updated books, magazines, latest learning materials.
- Safe and clean drinking water with proper bathrooms and healthy environment.
- Lots of sports and games organized for students' mental and physical health.
- Regular rewarding and encouraging the students through programmes.
- Student friendly environment in accordance with values and disciplines.
- Quality education with affordable fee structure.
- Scholarship schemes for deserving students.

Science Labs

Jubilant College has well-equipped labs for students of Physics, Chemistry and Biology taught in grades XI and XII. The lab rooms are spacious with required apparatuses and materials for the practical classes. It's quite comfortable to conduct various project and research works there as well.

Computer Lab

Computers have been indispensable parts of our life. Here, at Jubilant, some students can utilize computers as their practical course, and remaining students can also utilize them in their leisure time to develop their competencies. Internet and e-mail services are added along with other office packages and course contents. Boosting the students with the skills in computer helps them be ready as human resources in the job market.

Games and Sports

Jubilant College merges physical fitness and activities with knowledge and learning. We believe in their direct and indirect benefits through transformation of physical and mental slothfulness of the students into enthusiastic actions. Particularly through inter-college and intra-college competitions, the students can prove themselves as sporting personalities in football, volleyball, cricket, basketball, table tennis, tug of war and others. It's golden opportunity for such students to grow with the fame of the college.

Library and Books

Library and books are inseparable from academic institution. As the famous American writer Thoreau encouraged to “buy new books,” Jubilant College takes that for granted by updating the status of the books in the library time and again according to the demand and necessity of the students. Books are the gems as they can update the students’ level of understanding and knowledge through textbooks, reference books, magazines, newspapers, literary books to quench their thirst of knowledge and have joy of reading.

ECA and CCA

Learning in the competitive world almost seems feeble without the participation of the students in several Co-curricular and Extra-curricular Activities. In fact, they are the parts of study in life which Jubilant College takes as mantra. For example, debate, speech and quiz contests activate the students in their study that finally yields excellent results. Likewise, the college organizes dance and music competitions that seek out the artistic and creative potentialities in the students.

Canteen and Hygiene

Food matters a lot to motivate learners in study. Jubilant College emphasizes on food and fun with study. Hence, the canteen of the college supplies hygienic and healthy dishes. There's no space for junk food. The students feel it amiable to dine together with variety of food and safe drinking water.

Infrastructures and Classrooms

The academic building, playground, canteen building, garden, labs, library, administrative building and other infrastructures of Jubilant College invite and welcome the students with attraction. These places provide them suitable environment to learn and grow. Moreover, the well-adorned classrooms with comfortable seats there make learning process conducive and easy for both teachers and students.

Career Guidance

In addition to curricular learning, our students receive various training and counseling. Other activities are purposeful to prepare our students for their prospective profession we send them for internship. We try to connect learning with life. Many of our intern students have been appointed to the jobs in the same organizations.

Annual Programmes

Jubilant College provides a platform to train students in diverse aspects of life through different programmes organized without hampering academic routines and activities. We orient them with clear vision of the subject matters they choose to study. Besides, the students get exposure to dance, singing, speech and others. They can also show their skills and talents.

Outdoor Activities

Travelling broadens our mind. Our students visit various sites, factories and business hubs. They involve in various tours, excursions, campaigns and field visits for learning by observing. These activities naturally cater human and social skills that benefit them in their future career.

Academic Boosting

To be able to work in any part of the world, our students need to receive global standard of education. Learning in JC is enriched with the seminars, presentation, guest lectures, and real field activities. Needless to say, regular classes, extra classes, examinations, re-exams, their follow ups and monitoring.

Subject Combination

Management XI

1. Compulsory English
2. Compulsory Nepali
3. Accountancy
4. Economics
5. Hotel Management/Computer Science/
Business Studies
