TTSS is committed to provide the 'best' world class education to its students. For the purpose of placing TTSS as a truly 'international' school, TTSS is continuously and comprehensively working to secure the most prestigious accreditation in the world.

AdvancED is the largest K-12 accreditation agency in the world, with presence across 73 countries and about 35000 schools. AdvancED deploys rigorous standards of educational excellence to evaluate and improve schools globally.

TTSS is very proud to inform to all our well wishers, students, guardians, faculty members and school community that TTSS is also rigorously preparing to offer American style education and curriculum in Grade 11 & 12. An American creation and curriculum system will prepare students to become global citizens and open multiple career avenues for the students around the world.

American Accredited Academic Institute.

About the College

The Times International College/SS established in 2000, has been consistent in its approach to redefine quality education not only to nurture their academic knowledge and skills, but also to encourage and motivate them to become better human beings. We strive to attain the challenging goal of blending competitive education with a range of extracurricular and co-curricular activities so that our students can excel in activities and situations that demand their personal knacks on issues that do not usually make subjects in their class rooms. We are inclined towards developing and maintaining an educational environment conducive to students with different interests and aspirations. We believe that such an approach to education is both prompt and pertinent to the overall development of students with pure academic pursuits or extracurricular ambitions. TTIC makes the students prepared to change themselves towards positive attitudes. The College has sophisticated and fully equipped infrastructures.

Our societies have become so much competitive and globalized. Ordinary learning can't pave the way to success in today's world. The college molds the students academically, socially, professionally and above all spiritually for their mesmerizing future and career. The college does not provide them only with theoretical knowledge, but also gives equal emphasis to their practical learning, taking them to the field visit, conducting seminars, conference, symposium and course related workshops along with non-credit courses for their leadership and personality development. Today's students contribute towards the acceleration of economic growth of the country and ensuring the "Dignity and Image" of the nation. So, the development of students should be molded and nurtured in such a way that ascertains both the scientific as well as humanistic vision. The college promises to make the students physically fit, mentally alert and emotionally stable with its academic programme and welcome all those students/guardians/professionals at the premises of college.

From the Desk of Management

Organization only can boom with strong, dedicated, determined, devoted, enthusiastic, creative and productive management team. Regarding the management of The Times International College/SS, we have all the features mentioned above. We have divided our academic and administrative teams separately in order to make the operational activities more dynamic.

Our management team believes that every student has of hidden aptitude and we explore their aptitude with appreciative inquiry. We never point out at students that they are wrong rather we look into ourselves as why we have not been able to make

them understand. We have a strong faith that a robber “Ratnakar” can be molded as “Balmiki.” We create such an environment in which students can thrive academically and grow as empathetic and compassionate human beings with ample professional qualities “Entrepreneurship Quality” and simply a “Good Human Being”. We have an another belief that students of today’s world must have cosmopolitan vision in absence of which students will remain paralyzed despite having a sound academic education. Finally, we would like to welcome all the aspiring students at the premises of “TTIC” and feel its flavor.

Mission

Our fundamental mission is to make learning process applied, spontaneous and career –oriented to equip each student to be competent enough so as to excel in the global arena. The principal aim of this institution is to impart quality and sound education.

Vision

To become a pioneer educational institution in Nepal by providing quality and time – bound educational service.

contact us on **01 - 4441163**
www.timescollege.edu.np

Objectives of the College

- To develop entrepreneurship along with professional and managerial skills in the students.
- To enable students to compete in the changing and challenging environment.
- To cultivate the habit of generating innovative and creative ideas in the students through continuous encouragement.
- To make learning process applied, spontaneous and career-oriented.
- To equip each student to be competent enough so as to excel in the global arena.

Our Salient Features

- TTIC comprises 8 ropanies of land with open space.
- TTIC has highly- qualified professionals with years of teaching experiences.
- The college has staff members cooperative, communicative and always ready to help the students out smilingly and altruistically.
- The college has its own hostel (separate for girls and boys) with all the “modern facilities.”
- Student centered teaching learning approaches.
- The college conducts extra-curricular and co-curricular activities for students’ physical and aptitude development.

Schedules of Classes

Teaching in all programs takes place in the form of lectures, seminars, workshops, project works, presentation and group discussion. The assessment of the students also takes place according to the nature of subjects. The college conducts Unit Tests, First Terminal, Second Terminal, and Pre- Board examinations in the regular basis.

Eligibility for Admission

The admission procedure of the college comprises of entrance examination followed by "Interview." Students holding minimum of "B+" in the examinations deserve to get admitted in Science stream,"B" in Management and "C" in Humanities.

Guidelines for

- **Project Work**
- **Case Studies**
- **Assignments.**

Educational institutions around the world invariably emphasize on the use of technology in making classrooms more engaging and, interactive between students and teachers. We believe in adopting the latest teaching methodologies and making the best use of available technologies so that our students can receive the best educational standard and remain updated with the educational practices in the

outside world. Along with classroom education, we have also put a lot of attention to provide practical exposure to students so that they can realize the true implications of what they study in their classrooms. We have also made it a point to update our resources regularly and to make necessary arrangements to make education fun and fruitful.

Class Project

» Various faculty members announce class project as a main tool of the learning process for their subjects. Class projects will be carried out by the students in groups.

» Evaluation criteria and weightages are assigned by the teachers concerned. The class projects are vital parts of the learning inputs of the program.

Summer Project/Winter Project

1. Summer project is a non credit course and is compulsory. A student is required to do a summer project on his/her concerned subjects instructed by his/her teachers.
2. A student who does not accomplish the summer/winter projects will have to do again before his/her final exams at any cost. If not, he/she may not be eligible to appear in the final exams.
3. Students, who receive adverse comments from their company guides, will be liable for disciplinary action.

Field Project

1. The field project for the students commences from Bachelor's programs.
2. The students are sent to different social and business related field projects for their practical purpose.

Class Project

Each group comprises of three/four students. Group once formed shall not be changed for the entire year. Each group has to conduct paper presentations on the topics given by the teachers.

Assignments

Instructions for assignment will be given in the class and the date for submission for reports/assignments will be declared in the class.

HM students visit at Hotel Soaltee Crowne Plaza

Students are provided with professional, career-oriented and development-related advice and information services to smoothen their entry in the globalized world. Those who need individual counseling are taken into consideration very sincerely and are provided genuine and life changing counseling along with making them nation loving citizens. We feel proud to state that many students have become important assets of our country after they receive counseling from our “special counseling team”.

Mentoring and Counseling

We feel proud to say that we are lucky to have showered with full support and co operation from all the members of TTIC to whom we would like to offer our thankfulness for encouraging and inspiring us to be board toppers from the college.

What do the toppers say about the college!

Choosing a right college for your higher studies can make all the differences. We know this because we've experienced it. Joining The Times International College has proven to be one of the smartest decisions that we've made. Both teaching and non teaching staff members of the college have supported us to us move towards our personal betterment. We owe big part of our achievement to them because they inspire us with a good environment to grow and prosper. We are very grateful to the college family for everything. We hope the new students joining The Times will get similar support from the college as we did. Initially, we were worried about which college to choose? But we joined The Times Int'l College/SS to become the part of its 'Success Story'. Now we are proud of becoming student of 'The Times'. Here we learnt human sensitivity, morality and true essence of life besides getting outstanding knowledge of specified subjects. We not only get competitive education from our teachers, but also share joys and sorrows with them. At last, we want to advise all the SLC graduates not to choose the college on the basis of uniform and outlook because this is the time to look ahead towards your future targets. So, The Times may be the excellent education center to convert your targets into reality and to achieve them. We cannot explain how proud we feel to be members of "The Times Int'l College". Highly qualified, experienced and friendly teachers and sound academic environment of the college have been shaping us as student to be reckoned with. The college also endeavors to develop our overall personality through extra-curricular activities. Among many colleges in Kathmandu valley, we found The Times Int'l College the best in developing our fishing skills. So, we heartily advise all the SEE appeared students to join this college. Be the TTIClans and feel the difference!
