Testimonials:

"Most people idea of future is to take a piece of past, apply make upon it and think it is future, a little improved. But in CKSS, I have always experienced the new idea and vision by developing my skills and confidence to confront the situation that I used to feel nervous about. For me, after studying in CKSS from last two years, I have learned that, Winning or losing go hand in hand but ability to participate and to perform matters the most."
